

## The unique electronic monitoring solution COVID-19 Compliant.

GEOSATIS is the sole electronic monitoring solution provider in the World able of ensuring social distancing rules.

Thanks to its advanced technology, the offender can install himself the bracelet under the surveillance of his supervisor. **No tools required, no need to measure ankle size, no need to adjust strap length, installation is done within seconds.** It is the same for removing the bracelet. The supervisor can, via the monitoring software, **initiate the remote opening** in order to let the offender remove the bracelet under the meticulous supervision of the supervisor. There is, therefore, **no contact between the probation officer and the offender** for the installation and removal of the device, which fully **respects the security measures linked to the COVID-19.**

GEOSATIS has always put the emphasis on security. For a probation officer who installs hundreds of bracelets per day, **the GEOSATIS bracelet is an undeniable plus.**
