

GEOSATIS MONITORING SOFTWARE

The GEOSATIS cloud-based monitoring system (GMS) collects and stores data from GEOSATIS products and provides an intuitive interface for organizations to manage the supervision of offenders.

Key features

-  Enrollment
-  Device status details
-  Last known location of all offenders
-  Current/historical tracking
-  Alarm management
-  Flexible zone scheduling
-  Customizable inclusion/exclusion zones
-  Device commands (open device, vibrate)
-  On-demand reports (PDF, Excel, CSV)

GEOSATIS offers secure, reliable, convenient and cost-effective offender monitoring technology for the community supervision of parolees, probationers and defendants; working with agencies to enhance public safety, improve community re-entry and positively impact recidivism.
